

TESSIAN MEDICAL ORGANISATION STRUCTURE

With a lean structure, the company is presently led by a founding Managing Director who is in charge of a team of five employees in charge of sales, administration, technical services and office support. The company plans to grow its staff base as business expands its product base and regional presence.

Besides supply of our goods, we also offer installation and support services in case of any challenges faced by clients especially in the use of equipment. Our team of factory trained engineers have the requisite experience and skills to ensure that clients are well trained in the use of specialized equipment to avoid downtimes during operations.
